BETHEL 7—LOCKE MILLS 6

Bethel came from behind to win from Locke Mills Sunday, 7 to 6. Bethel got off to a bad start, making several errors and playing poor baseball, but pulled themselves together later.

Locke's opened their half of the first inning with two runs on one hit, two errors, a base on balls, and a wild pitch. They had another big inning in the third and scored three more runs, to make the score 5 to 1 in their favor, as Bethel had picked up a run in the second.

In the third Wally Morgan missed a grounder and Dick Young fielded it. This loaded the bases and then Dick, trying to catch the man off first, heaved the ball at the coach on first and it went bounding down over the hill, allowing one man to score. Locke's scored their other run in the sixth.

In the fifth Littlefield fled out to first, then Wally got a base on balls, stole second, and scored on Stanley's double. Stanley scored a few minutes later on Bartlett's single to right.

Doyen opened the seventh with his third hit, then Maguire singled, Young fled out to the pitcher in an attempt to bunt, Littlefield walked to load the bases. Gill singled with two out to score Doyen and crossed the plate on Stanley's triple that landed in the woods behind center field. Four runs crossed the plate in this inning to end the scoring for the day.

Count acceleration and hill-climbing... count riding comfort and reliability... count economy of gas, oil, tires and upkeep... Owners say it—sales prove it—"Chevrolet is the best performer ever built!"

They say Chevrolet is "the best performer ever built" because it out-accelerates, out-climbs, out-performs all other economy cars—bar none! Because it represents the highest standard of smooth, safe, steady riding and day-in-and-day-out dependability. Because it gives all these results at lower cost.

But riding beats reading! So drive this fast, powerful Chevrolet and prove to yourself what Chevrolet sales prove to the world, that owners are right when they say it's "the best performer ever built."

The only low-priced car combining
ALL THAT'S BEST AT LOWEST COST!

THURSDAY, JUNE 22, 1939

40 YEARS AGO in the NEWS

June 21, 1899

Work on the new school house at
Middle Intervale was begun on
Tuesday.

West Bethel—The old meeting
house, occupied by four families
having children, will in future be
known as "Bean's Beehive."

Northwest Bethel—Geo. Chapman
and H. N. Upton have purchased a
hoing machine. Some timber has
been hauled to the spot where the
school house is to be built.

Locke Mills—H. F. Maxim has
one of the finest small fruit farms
in town. He has seven and one-
half acres of raspberries, one
acre of blackberries, two and one-
half acres of strawberries, besides
three-fourths of an acre of cur-
rants.

"THEY TELL ME"

Well sir, that piece I had last
week about the dump over across
the river was not so bad I guess
from what they said, but it didn't
do any good because the assessors
and the doctor had the things about
all settled by the time the paper
was out. It is kind of interesting
though to listen to folks, they al-
ways find something out of joint.
If they had lost the dump they
could have talked about that for
quite a spell, but with that off their
hands they went right back to kick-
ing about the sidewalks, or the fire
department, the roads, WPA or
the New Deal.

A fellow told me the other day
just how darn foolish the town is to
vote a couple of hundred dollars
every year for the band and as
much for the Chamber of Com-
merce to advertise the town with.
Just graft you know. I bet like as
not he didn't go to town meeting,
and if he did he never said any-
thing. But anyway he said the town
needs sidewalks, and this money
they're throwing away should be
spent for sidewalks. He says four
hundred dollars a year would go a
long ways and pretty soon we might
have as much sidewalk around the
village as we did 30 years ago. I
guess by the way some people have
been getting rid of the sidewalks
around their places and letting
them go to grass in others there
are two sides to the sidewalk ques-
tion. Anyway there are still some
people who would rather walk in the
street than on a sidewalk. You can
see 'em any day. Besides the Bethel
Band can be used the year round,
and that is more than you can say
of the Bethel Sidewalks.

THE WORLD OF TOMORROW (?)

The SNAPSHOT GUILD

PICTURES AT BEACH AND POOL

In taking pictures at the beach, remember that sunlit sand and open water
are quite bright. Be careful not to overexpose.

SWIMMING pools and bathing
beaches are busy places in the
summer time—and wherever there
is activity, there's a field for your
camera.

Since you find a lot of rapid action
at these places, the finer camera
with fast lens and rapid shutter pro-
vides definite advantages. But if you
use a trusty inexpensive box camera,
you'll find plenty to occupy it, too.

Among the things to picture are
beach games, water sports, diving,
children at play, sand castles, shade-
ow patterns on rippled sand, and—
at the lake or the seashore—scenic
views and sunsets.

The chief thing to remember, in
taking pictures at the beach, is that
sunlit sand and open water are ex-
tremely bright. Therefore, expos-
ures can be shorter than when snap-
ping pictures inland. With "chrome"
type film, 1/50-second shutter speed
at f.16 lens opening is sufficient for
a beach scene, and 1/50 second at
f.11 suffices for average shots of in-
dividuals and small groups. These,
of course, are "sunny-day" expos-
tures—on cloudy-bright days, use the

next larger lens opening. With a box
camera, on a sunny day, use the
large lens opening for shots of in-
dividuals and groups, and the small
lens opening for scenic views.

For shots of fast action, the fine
camera is best—but you can also get
good pictures with a box camera. If
you are alert for momentary pauses
in the action. These occur in most
games or sports. Naturally, they
don't happen during a dive—so with
a slow camera you'll have to pose
the diving pictures. Your subject
can halt on the end of the board, in
proper position to "take off"—and if
he does it realistically, the picture
will be about as interesting as a
genuine action picture.

If you possess a finer miniature
camera in the 35-millimeter or No.
825 size, by all means take a roll or
two of full-color film along when you
go to the beach or pool. Bright
beach umbrellas, vivid costumes,
blue water, and golden sand make
these places ideal for full-color pho-
tography. And today, it's just about
as easy to use full-color film as to
take pictures in black-and-white.

OUR TRIP TO AUGUSTA

We were off for Augusta about
8:30 and arrived there at 11:30.

We went directly to the airport
to see what time a plane was to
land there. We were told that one
from Boston was to land at 12:30.
That meant we had to hurry and
eat lunch. We went to the State
House and got "soda pops" and
to the park across from the Capitol.
Hurriedly we ate and rushed back
to the airport.

We saw this plane make a per-
flect landing and take-off. This was in-
teresting as many of the class had
never before seen this spectacle.

The imposing State Capitol Build-
ing is built of native granite and is
located on a hill overlooking the
business section of the city. In the
museum of the State building we
saw a number of stuffed animals
such as, moose, deer, bear, raccoon,
buffalo calf, mink, white seal, and
many others. We saw birds, live
fish, minerals, Indian relics and
guns. We went up into the dome.
Here we went outside and looked
out onto the Kennebec and pictur-
esque countryside. We went into the
House of Representatives and Sen-
ate. We saw flags of Revolutionary,
Civil, Spanish-American and World
Wars.

We next visited the beautiful
home of James G. Blaine which is
now used as the Governor's man-
sion. We were in the room which
has been left with exactly the same
furnishings as when Blaine died,
and also saw a note from Abraham
Lincoln in Lincoln's own hand-
writing.

The State Bureau of Identifica-
tion was next. There Lieutenant
Shepard showed and explained fin-
ger printing, photography of bullets
and many other instructive things
in this line of work.

Old Fort Western, on the east
bank of the Kennebec, which fig-
ured prominently in the early Indian
wars, has been restored and is now
open to the public as a museum.
Here we saw things as they were
in 1754. Fort Western is the begin-
ning of Augusta's history. This was
very interesting.

We ate lunch at Rome Inn in
Winthrop and got back to Bethel
at 7:45 P. M.

OUR TRIP TO PORTLAND

All the year we have looked for-
ward to our trip to Portland, and
you can imagine how excited we
were when the great day arrived.

There were thirty-three people
present, including Mr. and Mrs.
Drummond and also Mr. Flint, the
driver.

On the way we saw many inter-
esting sights, one of which was a
Play Day parade in South Paris.

We arrived in Portland about
10:45 and the first place we visited
was the Oakhurst Dairy. There we
were shown how milk is pasteur-
ized. We were given as much choc-
olate milk as we wished. Then we
were shown all through the dairy.

The second place we went to was
the National Biscuit Company.
There we were shown how cookies,
saltines, and crackers are made and
put in boxes. The people who show-
ed us around were very cordial, and
at the door each of us was present-
ed with a box of cookies.

By this time it was about 12:30
so we went to W. G. A. N. Broad-
casting Station in the Columbia
Hotel where we were allowed to
watch the broadcast, "Uncle Lem
and His Mountain Boys." They
kindly gave us permission to ap-
plaud after each selection.

We were now all very hungry so
we drove to Deering's Oaks, a
beautiful park, and bought drink
and ate our lunch.

After eating lunch, we went to
the Deering Ice Cream Company
where we had as much ice cream
as we wanted. We were shown
through the plant and did many in-
teresting things which included go-
ing into a room where the tempera-
ture was 26 below zero.

Following our visit to the Ice
Cream Co. we went sight-seeing
and saw many historic places such
as Longfellow's home, birthplace,
and his monument, million dollar
bridge, Portland Post Office, East-
ern and Western Promenade, Maine

General Hospital, City Hall, and
Union Station.

The next stop was at the Port-
land Evening Express Building
where we again rode in an elevator.
We saw papers being printed, pack-
ed and ready for delivery, which
was a very interesting process.

We next went to the movies, a
double feature, "Fast and Loose"
and "The Hardys Ride High." They
were both excellent pictures.

By that time we were tired and
hungry so we started for home
planning to stop somewhere and
eat our supper. We sang songs and
told stories on the way home.

We all had a splendid time, and
I can say for myself that I had the
best time I've ever had. Although
I'm glad to be going into the Acad-
emy, I am sorry to be leaving the
Grammar School and the teachers
who have been so kind to us.

TRUTH about ADVERTISING

By CHARLES B. ROTH

HOSS TRADIN'

MY FRIEND asked me if I would go with him to buy a horse. I went. We traipsed from one dealer's to another. One man asked us \$300 for a horse. The next man had a horse which looked no better, but his price was \$450. Before the afternoon was over we had seen horses ranging in price all the way from \$150 to \$14,000.

Now, the \$14,000 horse was a much better animal than the \$150 horse. No use to deny that. But nowhere along the line did we find a stabilized market.

Had we bought we would have been paying a price which the seller thought his horse was worth. There was no market authority we could consult which would tell my friend whether he was being overcharged or undercharged.

That same evening I went out to buy a small household item—one which is advertised in all the newspapers. I knew what the market price would be: advertising had told me.

With confidence I asked the clerk for what I wanted and put my 25 cents down on the counter. Had he said: "I am sorry, sir, but the price is 50 cents," I would have left and gone somewhere else.

What assurance have I, as a consumer, that someone won't take advantage of me and overcharge me in this bold way?

My only assurance is the newspaper. That is my market and my buyer's guide. It tells me the prices I must expect to pay. Let the seller who tries to charge me more beware.

It also tells me what quality I may expect. Let the seller who tries to give me a poorer substitute beware.

So you see that advertising stabilizes prices and enables me, no matter how inexperienced I am in business, to buy with the same expertness and assurance of a professional buyer who spends his life buying for a large concern.

No one objects to paying the established price for something he wants. But all of us hate to be robbed by an unscrupulous man who, taking advantage of our ignorance, "soaks us good and plenty."

The way to avoid being "soaked" in this complete way is to buy advertised goods from merchants who advertise.

There was a time in America when there were no set prices. Each merchant charged what he thought "the traffic would bear." Advertising came to the rescue of the consumer. It led the way to the established prices you pay when you buy anything today—except, perhaps, horses.

WHY DON'T
YOU
TRY IT?

After more than three months of suffering from a nervous ailment, Miss Glivar used Dr. Miles Nervine which gave her such splendid results that she wrote us an enthusiastic letter.

If you suffer from "Nerves," if you lie awake nights, start at sudden noises, are easily, are cranky, blue and fidgety, your nerves are probably out of order.

Quiet and relax them with the same medicine that "did the work" for this Colorado girl.

Whether your "Nerves" have troubled you for hours or for years, you'll find this time-tested remedy effective.

WILLIAM EDMUND CHAPMAN

William Edmund Chapman passed away suddenly Saturday evening, following a heart attack, at the home of his daughter, Mrs. Grace Chapman Dooley, at Portland.

Mr. Chapman was born in Milan, N. H., July 12, 1858, the son of Milton W. and Mary Yates Chapman. He was one of eight children, none of whom survive. As a young man he resided in Bethel and Norway, but nearly all his adult life was spent in Portland. He was employed as paper hanger until five years ago and was considered one of the best in this trade. For the past seven years, he had made his home with Mrs. Dooley. He was the oldest surviving charter member of Woodfords Commandery, United Order of the Golden Cross.

He married Miss Elizabeth Abbie Winslow of Westbrook, who died many years ago. Survivors include four daughters: Mrs. Grace Dooley of Portland, Mrs. Dorothy Pine, Mrs. Muriel Sirgheney and Elizabeth Emery all of New York City; four grandchildren: Betty Brown of New York City, who is known as Miss Betty Real, who appeared in Ziegfeld's last Follies; Delores and Paul Sirgheney, New York City, and Kenneth Chapman Cushing of Portland.

Funeral services will be held this (Thursday) afternoon at Greenleaf's funeral home. Interment will be in Riverside Cemetery.

Michigan 'Wolverines'

The usual explanation for the nickname "Wolverine," according to the Detroit News, is the fact that this territory in its early days abounded with the fur-bearing animal known as the wolverine or glutton. This animal, now extinct in Michigan, belonged to the weasel family. Another explanation, however, is that Conrad Ten Eyck, a tavernkeeper about the year 1800 made a specialty of wolf steaks. After his guest had eaten a beefsteak or lamb chop, he would be asked, "How did you like your wolf steak?" A young girl who had been told in this manner that she had eaten wolf steak said, "I suppose I am a Wolverine." The name, first applied to those who had eaten at the inn, was later extended to all the inhabitants of Michigan.
